### **What happens if I need additional assistance in the future?**

Among the benefits of living in a continuing care retirement community are the levels of care offered. # Steps to Residency

Our goal is to make moving to the Personal Care Residence at The Village at Shrewsbury as easy as possible for everyone involved, as we realize this can be a stressful time in your life.

1. Complete an application. From this application, we will process the information to determine if you meet the financial requirements and which style of accommodations you would be eligible for.
2. We will provide you with a Medical Evaluation Form to take to your personal physician. Your physician will need to complete the evaluation in full and return it as soon as possible.
3. In addition to your physician completing the Medical Evaluation Form, we will schedule a time to complete an Assessment-Support Plan. If the prospective resident is currently in the hospital or nursing home, this meeting can also be held there, depending upon location. In addition to being required by the state, completing this document is a wonderful opportunity for us to learn more about preferences and discuss personal service needs.
4. After the meeting (with supporting documentation outlined on the form), Medical Evaluation Form and pre-admission Assessment-Support Plan will be reviewed. At this time, you will be notified if your application has been approved. This is not a lengthy process. If necessary, move-in can occur within 24-hours of your first inquiry.
5. Establish a move-in date. Your date of occupancy should occur within 7 business days of notification of acceptance or accommodation readiness by The Village at Shrewsbury, unless pre-approved by the community.
6. Schedule a date to move in and sign your Residency Agreement.
7. On or before day of move-in, provide any remaining paperwork and meet any outstanding financial obligations for the month. We will provide you with this amount prior to move-in. We invoice for services at the beginning of the month for upcoming room and board charges. The amount due will be pro-rated based on the remaining days in the month.
